Am bktne S N Castle, Hubbard, from Port Blakely, due here Dec 15th, to Castle & Cooke.

Am bk J H Bowers, now due from Hongkong.

BORN.

In Honolulu, on November 23rd, to the wife of J. F. Jordan, a son.

LOCAL & GENERAL NEWS.

To-morrow will be Thanksgiving Day.

The usual services at the Churches this evening.

The athletic sports have been postponed until Friday or Saturday next.

Mr. Lewis J. Levey's regular cash sale begins at 10 o'clock to-morrow morning.

The Honolulu Rifles drill this evening, preparatory to the competitive drill on Saturday next.

The Pacific Hardware Co. has a pretty display of silver ware, received by the Zealandia, in their store windows.

The next event on the programme of Jubilee festivities, is the grand ball at Iolani Palace, to-morrow evening.

Mr. Miller, the well known cabinet maker on Hotel street, fell and sprained his back somewhat badly, yesterday morning.

A COFFIN in a hand cart, pushed by a native, stopped in front of an up town saloon, this morning, while the native went into the saloon to drink.

JAMES Saunders beat Wm. Howe by 10 points, in the three-ball billiard match at McCarthy's, last evening. The highest run was 15, made by Howe.

Two women entered into a squabble on Fort street last evening, in true masculine style. They struck each other's face, and pulled each other's hair, while the old man stood by as a referee.

Mrs. Perry has a notice in this paper, important to sportsmen.

As we go to press, a bark is signalled 20 miles north-east.

Mr. Fishel has received a lot of new goods by the Zealandia, as will be seen in his new advertisement.

A WELL-KNOWN newspaper man was seen breaking stones on Nuanu road this noon, not from compulsion, but for the purpose of creating an appetite for lunch.

DIARIES for the coming year are obtainable at Soper's, but will not be in a short time, at the rate they are disappearing. If you want one, hurry up.

It was reported on the streets this morning, that Hon. Chas. R. Bishop and Minister Merrill are going to Washington to see about certain Hawaiian affairs. On enquiring of the proper person, it was ascertained that the rumor has no foundation in truth, and that Mr. Bishop will be home in December.

SOBRIETY.

Sobriety would seem to be on the advance, probably owing to the superabundance of the pure liquid element during the past few days. No drinks, no flues, no assaults, no opium in possession, no commitments—nothing except one remand to the 27th inst., on the Police Court record, to-day.

FROM OCEAN TO OCEAN.

An item in the Amherst, N. S. Canada Gazette, states that the Railway lines are offering excursion return tickets to British Columbia, good for seven months, for \$101. When the new line of steamers in connection with the Canadian Pacific Railway get running, Honoluluans will probably be able to make summer trips to Boston, at very little more than it would cost them to stay at home.

PHOTOGRAPHIC VIEWS.

Mr. Williams, photographer, took about 60 instantaneous views of the Jubilee reception, the Regatta, the Procession, and the Luau. He is mounting them, and will shortly place them on exhibition. Yesterday, while waiting for their Majesties to leave the Palace, Dr. Brodie mounted the stairs, and when turning to see who was calling him, was photographed by Mr. Williams. The doctor was invited to see the picture this morning, and being pleased, laughingly ordered several of them.

A BOARD MEETING.

A Honolulu lady, who is a member of the executive boards of various local societies, has a family of children, among whom is a little three-year old girl. The child had often heard her mother talk of going to a board meeting, without the remotest idea of its meaning. The lady brought her little girl to town, yesterday afternoon, and amused her by showing her the shop windows. The child was delighted, pointing to the different objects of interest as they were passed, and exclaiming, "This is a shoe store, that is a picture store, etc." until they came to a lumber yard, when she inquired, "Ma, is this the Board Meeting?"

OUR HANSARD.

Our reports of the legislative proceedings of the session of 1886 is now published in book form, consisting of 744 pages, including a comprehensive "table of contents," carefully prepared by a gentleman who has taken a deep interest in the work during its progress through the press. These reports are impartial and entirely free from any partisan bias. The book is on sale at Mr. Soper's (formerly Oat & Co.'s), Merchant street, Mr. T. G. Thurman's, Fort street, and the DAILY BULLETIN Office. The price is \$3.00.

SUICIDE AT THE QUEEN'S HOSPITAL.

A Chinaman, named Dun Tai, committed suicide by hanging, at the Queen's Hospital, early yesterday morning. He had been under treatment for fever, for several days, and was mending. The deed was committed by hanging himself with a piece of cord to the top of the bedstead, inside the mosquito curtain. When discovered, the man was warm and had been dead a very short time. A coroner's jury, after viewing the body and examining witnesses, arrived at the verdict that "the said Dun Tai came to his death from strangulation produced by his own hand, while delirious from fever, on the 23rd day of November, 1886, between the hours of 4 and 6 A. M."

JUBILEE LUAU.

The luau, yesterday afternoon, was favored by pleasant weather, which was highly appreciated after the week's rain. The guests began to arrive at the scene of festivities a little before two o'clock, and were very graciously received by His Majesty and Princess Liliuokalani. The feasting began shortly after three. The tables were laden with edibles and drinkables of almost every mentionable description. Probably not less than 15 hundred guests partook of the feast, which lasted from the time of commencement till the shades of night began to gather. As the guests retired from the tables, making room for fresh relays, they wandered around the grounds and through the Palace, enjoying themselves. The affable

treatment of the guests by the King and Royal family, contributed largely to the pleasure of the occasion. The jubilee luau was a decided success.

SUPREME COURT--IN CHAMBERS.

BEFORE JUDD C. J.

In the estate of Alina, deceased, petition for probate of will. Mr. J. A. Magoon for petitioners. Partly heard and continued for the evidence of Kaula, a subscribing witness to the will. The deceased was lately resident in Honolulu and the estate consists mainly of a leasehold interest valued at \$1,000. The will devises the testator's property into five equal parts—one of which goes to his wife, his three daughters and to Chou See, now resident in China.

In the estate of Wm. B. Wright, deceased, petition for administration. Ordered that temporary letters of administration issued to Hon. W. C. Parke under \$500 bond. Deceased was lately Superintendent of the Hospital for Insane. So far there is nothing definite as to the extent of deceased's property. The temporary administration is issued to prevent waste and the suspension of the business of taro culture and grass cutting.

Kwong Fat vs. Papaikou Sugar Company. Action for assumption in the sum of \$397.50. The defendant is a corporation carrying on business at Hilo, Hawaii. The case was heard on defendant's motion for a change of venue on July 29th, when the motion was denied. It was then stipulated that the jury be waived, and the case heard in vacation. The case was now partly heard, and continued until the testimony of several witnesses at Hilo can be taken. Hon. Paul Neumann, for plaintiff; Mr. W. R. Castle, for defendant.

POLICE COURT.

TUESDAY, NOV. 23rd.

Drunkenness, Luhi, J. D. Taylor and Erickson, \$6 each.

Affray, Keawe and Kiekie, \$6 each.

Having opium unlawfully in possession, Ah Tuai, \$51.20 and hard labor 20 days.

CIVIL CASES.

I. I. S. N. Co. vs. Pikake, Pika and Punikala, deserting contract service; the first settled out of court, with costs \$2; the other two ordered to return to employers, costs, \$3 each.

CHANGE OF LEVEL OF THE NEW ENGLAND COAST.

In his report of the operations of the geological survey during September, Director Powell said that while engaged in geologic work in the Atlantic division Professor Shaler discovered a point of much interest in his bearing on the nature of the recent changes of the level of the New England coast. It is that the rivers which flow from south to north have a great amount of marshes in their valleys and hardly a trace of alluvial terraces, while the rivers which run from north to south are not bordered with swamps, and all have distinct terraces. He offers as an explanation the theory that the shore has all been tilted up to the northward, thus partly destroying the drainage of the rivers which flow northwardly.—[Washington Star.

THE KIMBERLEY GOLDFIELDS.

A telegram from Mr. Hare, Government Resident at Wyndham, dated October 14, and despatched via Port Darwin, states: Tweed, an old Queensland digger, brings news that a 40oz. nugget has been found. He reports that the diggers are getting more gold than is generally supposed. £500 worth of gold was brought in last Saturday. He says that the track from Wyndham is 100 miles shorter and 100 times better than the Derby route. Tweed has travelled by both routes. He has lately seen a springcart and one horse that brought 700lb. weight up to the fields from Wyndham. This settles the question as to the superiority of O'Donnell's track. Tweed also brings information that gold has been struck on the Pantan. Diggers are continuously coming in, and are loading up for the wet season. Prospecting parties have gone up the Ord, Forrest and King Rivers in boats. A lode supposed to be cinnabar, 300 feet wide, has been discovered. Late reports are very encouraging. A party of men found gold six and nine miles from Wyndham, but not as yet in payable quantities. The country is being well prospected. Carr Boyd has brought in 11wt. of magnificent quartz, in which gold is plainly visible. A reef has been discovered about 220 miles from Wyndham. Boyd is proceeding south by the Perth.

Mr. J. O'Donnell has been most successful in piloting and leading a dray to Mount Barrett, and has received a testimonial from over 60 teamsters who started with him. Better reports are now coming from the fields. A 31oz. nugget is in the hands of the Government Resident. Mr. Carr Boyd left for Melbourne with 7wt. of quartz showing gold in the matrix. This was taken from a leader 4 feet wide in Hall's Creek. The exodus from Wyndham is not so great. There are some 1,200 diggers still on the field. The reports of a rush to the Lower Pantan have not been confirmed. Men are still cautioned against proceeding to the diggings until accounts have been received after the rainy season.

Great distress prevails among the penniless people on the diggings.—[Sydney Mail.

TUNNEL FROM SWEDEN TO DENMARK.

Alexander de Rothe, an engineer, who has been working at Panama under M. de Lesseps, has presented to the Government of Denmark and Sweden a project for a submarine railway tunnel under the Sound between Copenhagen and Malmo. The tunnel is to have a total length of 12 kilometers. The ground to be worked much resembles that in the Channel between England and France, and is said to offer no difficulty to the execution of the work. The cost of construction is calculated to amount to 30,000,000, or £1,200,000. The Swedish Government takes a great interest in the plan, while the Danish at present is keeping somewhat back. Mr. de Rothe entertains a very sanguine hope of a successful result of the negotiations. The tunnel would be of the greatest importance for the future commercial connection between Sweden-Norway, and later on of Russia and the whole Continent, as laden railway wagons could then run from the north of Norway, Sweden, or Finland, down to the south of Italy.

SLEEPING UNDER THE CLOTHES.

There is reason to believe that not a few of the apparently unaccountable cases of scrofula among children proceed from the habit of sleeping with the head under the clothes, and so inhaling air already breathed, which is further contaminated by exhalations from the skin. Patients are sometimes given to a similar habit; and it often happens that the bedclothes are so disposed that the patient must necessarily breathe air more or less contaminated by exhalations from the skin. A good nurse will be careful to attend to this. It is an important part, so to speak, of ventilation. It may be worth while to remark that when there is any danger of bed sores, a blanket should never be placed under the patient. It retains dampness, and acts like a poultice. Never use anything but light woolen blankets as bed covering for the sick. The heavy, impervious cotton counterpane is bad, for the very reason that it keeps the emanations from the sick person, while the blanket allows them to pass through. Weak patients are invariably distressed by a great weight of bedclothes, which often prevents their getting any sound sleep whatever.—[Florence Nightingale.

"How can I get rid of fleas on my cat?" asks a subscriber. Easy enough. Soak the cat in four feet of water until the fleas rise to the surface. Then bury the cat.—[Burlington Free Press.

McGarrigan (taking his first sleeping-car trip, upper berth): Hoy, hoy, they're yez black devil, they breeze a felly undur me bed!—Puck.

A cottage-pudding isn't bad when it does not consist of a square inch of underdone cake drenched with hair-oil.—[Boston Transcript.

BUSINESS ITEMS.
